Our soil is high, rolling Missouri river bluff land, insuring healthy, well-rooted stock. Everything offered is grown to the highest standard, and will be carefully graded. To intending purchasers, who cannot call to examine stock, we will be pleased to send samples. All the stock is our **own growing**, and equal to any grown anywhere. All our nursery lands are 50 to 250 feet above the Missouri river flood line.

Those who wish to buy in carload or larger quantities than indicated in this list, or special sizes, will please write us. We promise the best terms the size of the order and current prices will permit.

Dealers and others will find our facilities for the careful, rapid handling of stock first class in every respect. Storage buildings and sheds are ample, with an abundant supply of water; 140,000 cubic feet of frost-proof cold storage.
